

I am writing to state that K-LOVE radio has a very positive effect in every community where they broadcast. K-LOVE has family friendly, positive messages that meet a genuine need not found elsewhere. If K-LOVE were to be replaced by an LPFM broadcaster this community would lose a precious commodity. K-LOVE is the only radio station that this community has that delivers 100% decent and family building programming. K-LOVE is the only radio station that consistently has living proof stories of lives changed by their service. This community has decreased crime and increased compassion thanks to K-LOVE. It would be a travesty to replace K-LOVE with anything else. Thank you for your time.
